EXPERIENCE

Logiprompt techno solutions, Trivandrum

software tester

June 2024 - Present

- Tested EduSoft ERP Software used by colleges to ensure features like student management and course scheduling worked smoothly.
- Tested a hospital management app for medical representatives, gathered client requirements, and suggested improvements to enhance quality.
- Checked the Skill Connect Educational Software, ensuring it helps students explore the right career paths based on their skills and interests.
- Tested hospital and lab websites, making sure appointment booking and patient management features were easy to use and bug-free.
- Worked using Agile methodology, participating in sprints and adjusting to project changes.
- Mentored individuals on automation testing with Selenium in Java, using TestNG and Cucumber.

Qtest software solutions, Calicut

software tester intern

October 2023 - April 2024

- Worked with demo websites like Rediff Mail, Guru V1, and Guru V4, making sure all features were functioning properly.
- Developed test cases and reported bugs using Excel to monitor and maintain software quality.
- Developed automated test scripts using Selenium with Java, TestNG, and Cucumber to accelerate testing, improve efficiency, and ensure reliable test execution.
- Used JMeter to test how well the applications performed under heavy traffic.
